The Company

Established in 1938, **The Canadian Corps of Commissionaires** – Manitoba Division is part of Canada's largest employer of veterans and Canada's premier security services provider. Based in Winnipeg, Brandon and throughout the province, Commissionaires Manitoba boasts a staff of over 1,000 offering guarding services, bylaw enforcement, detention guards, identification services, security consulting and training.

The Requirement

Established in 1938, The Canadian Corps of Commissionaires – Manitoba Division is part of Canada's largest employer of veterans and Canada's premier security services provider. Based in Winnipeg, Brandon and throughout the province, Commissionaires Manitoba boasts a staff of over 1,000 offering guarding services, bylaw enforcement, detention guards, identification services, security consulting and training.

The Results

365 implemented and expanded a brand-new network within Commissionaires Offices in Winnipeg and Brandon including expanding the use of industry leading office tools to all employees. To ensure constant compliance with a growing range of operational and administrative requirements, economical and practical revisions to existing networks, hardware, and ancillary systems were made within defined budgetary restrictions. Integrated within existing systems and services, Commissionaires sustained and expanded its operationally imperative disaster recovery solution for all mission-critical systems while also seamlessly expanding.

As a 365Care+ managed services client, Commissionaires Manitoba's team benefits daily from a fully outsourced IT department. With unlimited access to a 24/7 help desk, our ongoing access to anytime support has supported our commitment to our clients but also who make our business successful every day – our staff. As a result of the high degree of integration and partnership, 365 Technologies has helped us achieve a significant expansion to our operations on both time and budget.

More importantly, because we were able to work as a team with 365 Technologies, we have been able to make economical allowances for future growth and the integration of evolving security architectures. This contributes to a robust capability for future expansion. 365 Technologies is a key partner in ensuring that we remain **"Trusted. Everyday. Everywhere."** not only in Winnipeg but also across the province where and when required."
