The Company

In 2000, **Larry Frostiak & Ken Leslie** joined forces to form Frostiak & Leslie Chartered Professional Accountants. Since then, the firm has grown to a staff of 28. With a focus on Canadian owner-managed enterprises and an entrepreneurial mindset, Frostiak & Leslie Chartered Professional Accountants delivers a full range of accounting, tax, and business advisory services.

The Requirement

In order to support their ongoing growth, **Frostiak & Leslie Chartered Professional Accountants** sought out the services of 365 to provide a managed approach to their technology. This team of accountants requires rapid access to information, reliable systems to support time & billing, and around-the-clock support for peak business periods such as tax season and fiscal year ends. In addition to managing the internal network, office productivity tools, and Email (*Microsoft Exchange*), the firm required vendor management for mission-critical line of business applications (*Practice CS, Accounting CS, and CaseWare*).

The Results

With over one year of 365Care+ support behind them, the accountants and administrative staff of **Frostiak & Leslie Chartered Professional Accountants** have become accustomed to 24/7, anytime access to a 365 Help Desk technician. Further, through 365's myCIO technology consulting, the firm is moving forward with network upgrades and the implementation of a Business Continuity and Disaster Recovery (*BCDR*). Their commitment to technology reflects the firm's innovative nature, and ensures that they will continue to offer leading-edge services to their valued clients.
